Just Words® Introductory Workshops

Just Words® is an intervention (Tier 2) program for students in grades 4-12 and adults. It provides direct and explicit teaching of “how English works” for both decoding and spelling automaticity. The multisensory approach is designed for individuals who have mild to moderate gaps in their decoding and spelling proficiency but do not require intensive intervention. It provides a curriculum for the sophisticated study of word structure through the six syllable types in English and the most common Latin roots. Just Words is an appropriate intervention in daily small-group or class instruction.
